DODGE BROTHERS MOTOR CAR

What distinguishes it and gives it character is the way it is made, and the degree to which the possibilities of a car at \$785 have been developed, in point of commodiousness for the passengers, service, sturdiness, and general appearance. It is sold with everything that could be asked for in the way of equipment, including electric lighting and starting, one-man top, and windshield. There has been no skimping at one place in order to afford a flashy or eye-catching feature at another, and generous measure is to be seen in even the small details.

COUGHS

A cough is one of the signs used by nature to tell us that something is wrong with our human machinery. Neglect to take heed of this sign and correct the trouble while it was yet in an easily correctable stage, has fattened many a church yard. 25c spent today for an effective cough mixture may save \$25.00 or more next week. More than this, it might save your life.

WHY HENRY FORD IS OUT FOR WILSON

When Henry Ford announced that he, a life-long Republican, would vote for Wilson for president, a thrill went over the country, because Mr. Ford is an employer of labor. He gives the New York World his reasons for his faith in the following:

Detroit, Mich., Sept. 27.—Henry Ford, Republican, will cast his vote for Woodrow Wilson, Democrat, in November, and today he gave his reasons in detail for doing so. "To begin with," declared Mr. Ford, "I'm supporting Wilson because Wall Street is supporting the other man, or, rather, because Wall Street is against Wilson."

"I'm for Wilson because he is 'on to' the interests—the 'unseen hands' that seek to control government—and is holding them off. That he is 'on to' them and is holding them off is proved by his refusal to rush into war with Mexico, sacrificing the lives of thousands of young Americans to save the dollars that Wall Street has invested in Mexico on a gamble."

"For this one reason alone the nation is under obligation to return Wilson to the white house."

"I'm for Wilson because he is 'on to' the interests—the 'unseen hands' that seek to control government—and is holding them off. That he is 'on to' them and is holding them off is proved by his refusal to rush into war with Mexico, sacrificing the lives of thousands of young Americans to save the dollars that Wall Street has invested in Mexico on a gamble."

"I say—and I speak from experience—not from guesswork—that the Eight-Hour Law will help business. 'The employers of the country should be as enthusiastically behind Wilson in his advocacy of the eight-hour day as the workers, and they would be if they knew their business. For employers who are hostile to the eight-hour day do not know their business.'

"We have had the eight-hour day in force in the Ford factory for three years, and we have made more money each succeeding year under it. It has proved its own merit."

"Republicans are arguing that when the war ends all our prosperity will

cease—unless we have a Republican in the white house.

"I deny first that war is responsible for the present prosperity. The Ford Company has not taken a dollar of war contracts—has refused them time after time—and yet our business has grown constantly and we are now 200,000 cars behind orders."

"The business of the United States today has a momentum that no man or group of men can stop. 'As far as the tariff, which Republicans insist must be revised to help save our prosperity after the war, I want to say that the tariff is nothing but a hothouse remedy. It may make business sprout for a little while, but its effect is artificial and it can never produce a hardy, permanent business plant.'

"If we cannot compete on even terms with any country on earth, then we ought to quit. There is absolutely no necessity for hard times. There is enough in this world to do for everybody, and this country always will find enough to do if the interests and Wall Street will keep hands off and not rob the many to enrich the few."

"I believe the president hit the nail on the head in a recent speech when he said: 'The relations of capital and labor must be regarded as a human relationship of men with men. Labor must be regarded as part of the general partnership of energy which is going to make for the success of business men and business enterprises.'

"When we get somewhere near that basis the real causes of hard times will disappear and I believe that Wilson as president will do more to bring an approach to those conditions than Hughes."

"I know Hughes, Teddy and Wall Street are behind him. 'I'm a Republican, but I'm for Wilson. I'm a Republican for the same reason I have ears—I was born that way. But I'm for Wilson because I believe he can do more to enhance the prosperity and insure the peace of this nation than any other candidate. Any one who does not want peace, and who wants to gamble with prosperity, should vote against him.'
